

TRAINING PROGRAM 2022

Loft circling starts mid April

Training flights start mid May. Birds will be liberated in small batches, increasing in size up to size up to 123 km.

This is just an indication. Training flights might change due to weather.

On days not indicated in the program the birds will be trained by either shorter training flights or loft circling, depending on the weather.

DATE	LIBERATION POINT	KM	LIVE
9 - 22 May	4 - 5 days/week	10 - 60 km
